## WORLD AWAITS BREATHLESSLY THE RESULT OF NAVAL ENCOUNTER

Russian and Japanese Admirals Evidently Holding Sea Dogs in Lash Until  
All is in Readiness for Tremendous Battle in Eastern Waters.

### SO TIGHTLY

Was the Woman Laced that the Doctor Could  
Hardly Get Her Clothing Off and  
She Died.

St. Louis, Mo., April 13.—Night  
lacing is believed to be the cause  
of the sudden death last night of Mrs.  
Violet O'Connor, a guest at the Wash-  
ington Hotel and wife of John H.  
O'Connor, a travelling salesman. Mrs.  
O'Connor fell unconscious and died  
shortly afterward.  
Dr. William Nifong, who attended  
her, made this statement:

The woman was very tightly laced.  
All her clothes, in fact, were very  
tight, so tight that I had hard work  
loosening them after she was carried  
into my office. She had apparently  
eaten a hearty dinner. Her tight  
clothes and rapid walking naturally  
forced a large quantity of food to  
the brain, causing cerebral hemorrhage.

Despite the various rumors of en-  
counters between the Russian and  
Japanese fleets, it is doubtful if any  
engagement of any importance has  
occurred. It is not likely that either  
Japan or Russia will rush into the  
sea battle without becoming prepar-  
ed in every way. Rojstrensky is  
probably cruising slowly off the coast  
of Borneo that his vessels may have

an opportunity of getting into fight-  
ing trim after their long cruise. Then  
perhaps, the Russian admiral is giv-  
ing portions of his fleet time to as-  
semble for the final stroke. Japan  
is no doubt preparing for the coming  
fray with as much care as Russia.  
It would be the height of impru-  
dence for either admiral to send his  
fleet against the enemy unless all

things were prepared. The battle  
may take place today or in a week  
from now. The absolute silence of  
the Japanese is sufficient. The fleets  
are located some place in the China  
sea, probably between Borneo and the  
Anambas Islands. The fact that the  
expected naval battle is likely to de-  
velop very close to the Philippine Is-  
lands will render the fight of greater  
interest to Americans.

### FLYER THROWN FROM THE TRACK

By a Defective Air Brake at Bellefontaine  
and Seven Persons Were  
Injured.

Bellefontaine, Ohio, April 13.—Big  
four passenger train No. 43, from  
Cleveland to St. Louis, was wrecked  
here last night and seven people were  
injured. A man supposed to be S.  
Jacks, of Pittsburg, was fatally hurt.  
He was riding between the express  
and mail cars. Nathaniel Chandler,  
of Weymouth, Mass.; Miss Mary Ran-  
kin, of St. Louis; W. A. Wheeler, of  
Union City, Penn.; Mail Clerk G. H.  
Broughton, of Cleveland; Mail Clerk  
Charles Bowman, of Foxville, Ind.,  
and Engineer Charles Quagle, of  
Cleveland, were more or less seriously  
injured.

The wreck of the flyer is attrib-  
uted to the failure of the air brake  
which caused derailment. The train  
plowed into the netted switches at the  
crossing of the Sandusky division of  
the Big Four and the Ohio Central  
tracks, and tearing the tracks out so  
that traffic cannot be resumed on any  
of the three lines for many hours.  
Engineer Quagle and Fireman Den-  
nis Hickey, of Cleveland, remained on  
the engine until the very end. The  
locomotive, express, mail, baggage,  
smoking cars, day coaches and diner,  
all left the tracks and all were over-  
turned, except the day coach and  
diner. The three Pullman sleepers  
in the rear were not damaged. The  
wrecked cars are all badly mashed,  
and all the passengers were jarred.  
Escaping steam caused the wreckage  
to appear to be on fire, and the fire  
department was called out, but there  
was no fire. Hundreds of people were  
attracted to the scene.

Five deaconesses are affiliated with  
the home, three in this city, one at  
Bellefontaine and one in Fostoria.  
Mrs. John Craig, the treasurer, re-  
ported the receipts for six months,  
\$411.75; expended, \$589.54; balance  
on hand \$219.  
On motion of Dr. T. H. Campbell,  
it was decided to ask that a special  
column be given in the conference  
minutes to the report of the church's  
contributions to the Deaconesses' Home,  
and the secretary was notified  
to communicate with the authorities  
concerning this.

concert at F. E. Harman's this even-  
ing. Read the programme in this pa-  
per. Come and bring your friends.

### TRIED TO KILL HIS FATHER

That Charge Is Brought Against a Marion  
Township Lad Who Wielded  
a Pitchfork.

Poe Buettner is held under \$500  
bond to answer to a charge of assault  
with intent to kill upon his father.  
John L. Buettner, farmer and justice  
of the peace of Marion township,  
Young Buettner resides with his

grandmother on a farm, and has at  
times borrowed different utensils from  
his father, which it is claimed were  
not returned in proper condition. The  
father remonstrated with the son,  
when the latter seized a pitchfork and  
wounded his parent.

### HIS KNELL

And the Call To Prayer Rung at the Same Time  
By the Sexton Who Dropped Dead.

Sidney, Ohio, April 13.—Timothy  
Fitzgerald, sexton of the Holy An-  
gels Catholic church, tolled the bell  
for the services last evening and at  
the same time rang his own death  
knell. He dropped dead at his sac-  
red task, and was found with the

rope tightly clinched in his hand.  
The weight of his body held the bell  
at an angle in which the clapper pre-  
vented the vibration of the last stroke.  
The sudden cessation of the ringing  
led to an investigation, which dis-  
closed that his life had gone out with  
the last muffled note.

was brought to the motormen and con-  
ductors of the Lake Shore Electric  
Railway company by a circular letter

### INTO THE ARMS

Relative's Funeral.

Youngstown, Ohio, April 13.—  
While viewing the remains of her  
grandmother Mrs. Kate Ritter fell  
dead in the arms of Undertaker Mc-  
Cauley this afternoon. The funeral  
of Mrs. Margaret C. Overt was being  
conducted and the relatives were in  
the room taking a last look at the  
departed. The undertaker noticed  
that Mrs. Ritter was seemingly ill  
and went to her assistance, to find  
her corpse in his arms. She was 27 years  
old, and leaves two small children.

tract expires September 1, and by  
that time cars will be running.

### "GOOD-BY!"

Cried the Wife Through the Phone, and the  
Husband Heard the Fatal Shot.

Wheeling, W. Va., April 13.—  
"Good-by, I can't stand it any longer.  
I thank you for all you have done  
for me," shouted Mrs. Charles J.  
Haberstick to her husband over the  
telephone.  
Before Haberstick could reply he  
heard the crack of a pistol and knew  
this wife had taken her life. He rush-  
ed home to find her in her own blood  
on the floor.  
The woman's only child, a daughter,  
of 16, was the sole witness to the  
tragedy.  
Intense suffering from catarrh in  
the head is supposed to have been the  
cause of the rash act.

## HAS NO CINCH

BILLY CUNNINGHAM WILL HAVE TO FIGHT FOR NOMINATION.

There is going to be quite a scramble for the Democratic nomination for the circuit bench to succeed the late Judge Mooney. While Judge Cunningham, of Allen county, is at present the most open and avowed candidate, there are several other aspirants who are keeping their booms under cover to escape these late frosts. Among the aspirants might be mentioned Judge Hubbard, of DeKalb county; Judge Donnellis, of Henry county; Harry Kinder, of Hancock county; W. H. Kinsaid, of Union county, and several others whose candidacies are as yet in the incubator.

The third judicial circuit comprises sixteen counties, and as this territory is included in what is called the "Great Democratic Northwest," it can be readily seen why there is such a clamor. In the Roosevelt landslide last fall the district went Republican, but under normal conditions, the Democratic majority ranges from ten to fifteen thousand.

In the matter of the fourth congressional district, a leading Democrat who is in a position to know, says the report that Charley Adkins, of Allen county, had abandoned his ambition in the interest of harmony and Jake Ridenour, is farfetched and without any foundation in fact. He says that Adkins is in the race to win and will not only have his own county enthusiastically back of his candidacy, but he already has the assurance of substantial support from Darke, Mercer and Shelby.—St. Mary's Leader.

Aglow with brilliant colors and replete with rich warm Irish humor and shrewd Yankee wit, is the April number of Wayside Tales just out. This popular monthly, now in its seventh year continues steadily to improve, and over half a million readers will enjoy Major Ennis' rollicking stories from arroy life, and the irresistible Snifsky's account of the theatres of New York and Chicago. There are also some rattling good short stories and a number of able and interesting articles on timely subjects. Marguerite Warren Springer's "Religion of Democracy" is inspiring and Mr. Stedmans, who is always entertaining has an instructive article of the "Salons of Yesterday and Today." Oscar Wilde's "Salome" is a gorgeous thing, and Gertrude M. Murdoch's attack on the School Book Trust has attracted a large amount of attention. The magazine is splendidly illustrated. The best magazine in the market for a dime.

# BRAND WHITLOCK FOR GOVERNOR OF OHIO

Democrats at Cleveland, Presumably Backed by Tom Johnson, Launch Boom for Toledo Man.

Cleveland, April 12.—A boom has been started among the Democrats of Cleveland in favor of Brand Whitlock, of Toledo, for governor. The news has been brought that the novelist would not only accept the nomination, if tendered, but would find favor among the party leaders throughout the state.

M. B. Excell, president of the board of public safety, and a warm admirer of Tom L. Johnson and the late Samuel M. Jones, is outspoken in the Toledo man's favor. He thinks the novelist would have much of the strength that Jones had in his

Perhaps the largest well ever struck in the Indian Territory field was brought in on the "Prolifer Strip," Osage nation, last week. It is owned by the Reservation Oil company and located on lot 61. It is variously estimated at 3,000 or 4,000 barrels a day. It flowed oil all over the lease, it is said. It is a trifle west of former developments in that quarter and is more or less significant on that account.

# A JOYFUL TIME FOR THE PRESIDENT

Nature Loving Executive Making Very Best of Every Hour.

Frederick, Okla., April 12.—This has been an ideal day for President Roosevelt and his party of hunters in the big pasture. The weather has been cool and cloudy. The party goes out at 6:30 o'clock each morning and returns to camp about 11 o'clock for dinner. Fresh horses are saddled by attendants and a fresh start made at 1:30 o'clock in the afternoon. One of the diversions of the camp was a series of foot races in which the president participated. The dogs are accustomed to pursuing wolves that they left off chasing a wildcat yesterday when a wolf was scented. Last night a raccoon was caught in deep creek, and it is now in camp as a trophy of the chase.

# Iron-Ox Tablets

He exchanged a body full of aches and Pains For one full of strength and Life

Mr. F. W. Cowles, 37 Birch Crescent, Rochester, N. Y., is a gentleman well along in years, and as his strength declined, his system became run down and out of condition. So critical did his position become that he tried one remedy after another, only to find that he could get no relief. Iron-Ox Tablets were recommended to him, and so wonderful are the results that Mr. Cowles wishes every one to know how he has been cured. He says:

"I am 73 years old and have long been troubled with a stomach trouble, and have a bladder difficulty. When my stomach was bad, my bladder would be bad. I had no relish for food—my liver, I think, has not been in good condition. I have been somewhat constipated; my nerves also have been in bad shape. I have taken medicines of all kinds, but nothing seemed to do me any good. My daughter had a part of a box of Iron-Ox Tablets and told me to take them. I did so and very soon felt an improvement. I could not attribute my improvement to anything else, and felt encouraged. When I had taken all the box she gave me, I did not want to give them up, so got me another box. I take them regularly, and am certain they are doing me good. Before taking Iron-Ox Tablets I was dejected and out of spirits; now I feel bright and cheerful and have a better relish for my food. My bowels act nicely, and I can see a decided improvement in my stomach and bladder.

The cause of nine-tenths of the sickness of the human race is constipation. Constipation upsets the stomach, and the digestion. It poisons the blood, ruins the nerves, dulls the eye, produces torturing headaches, and robs the body of all sleep and rest. It tears down the system and paves the way to disease and death. Don't allow constipation to get a hold on you. If you have it, break it up.

Iron-Ox Tablets cure constipation. They give instant relief to the congested bowels, and build up and strengthen every organ of the body.

# THREE WOMEN ARE INDICTED

Unusual Case at Celina, O.—Ida Cox Charged With Shooting to Wound Her Neighbor. Wound Might Have Proved Fatal—Other True Bills.

Celina, O., April 12.—The grand jury have made their report to Judge S. A. Armstrong and it includes the indictment of three women—a somewhat unusual occurrence. The women indicted are Ida Cox, shooting with intent to wound; Mary Schultz, keeping a house ill-fame; Margaret Hartwell, adultery. Mrs. Cox was arrested several weeks ago for shooting her neighbor, another of the town, who had made a disturbance. The wound was painful and might have proved fatal. Several workhouse arrests were made at the time of young boys who frequented some of the houses of ill-repute and the disclosures made at these trials led to the arrest of the Schultz and Hartwell women. Twenty-six women were examined by the grand jury. Three of the six cases presented were ignored. W. W. Harring was foreman of the jury.

# MARRIAGE IS A FAILURE DECLARES ANDREW MAHON

Wedded at Midnight, Spanked By His Wife, and Sued for a Divorce Within a Month.

Sandusky, April 12.—Andrew F. Mahon feels that marriage is a failure, having been sued for a divorce within a month after being married. The wife filed suit for divorce, February 25, in which she alleges cruelty and desertion. Andy has filed an answer in which he says that he was compelled to abandon his wife for his own safety. The wife's sister had been visiting them ever since a week after their marriage and, when Andy inquired how long the sister would remain, his wife took offense and said she would apply for a divorce. Mr. Mahon says he informed the lady that he was master of his own house, for which bold assertion his wife boxed his ears twice, spanked him with a slipper, pounded his cranium with an alarm clock, and finally pulled his hair. This misunderstanding occurred about midnight and, as this treatment was too much for Andy, he was compelled to go down stairs and stay until morning. The marriage itself was an unusually romantic one. Although well past the half century mark in life, Andy and his bride-to-be decided that happiness would only be wasted by delay and hid themselves for the home of a minister here at midnight early last January and had the knot tied.

SOUTH  
SIDE... Newsy Happen-  
ings Gathered  
Across the  
Ottawa.

Phasantly Surprised.  
A number of South Side ladies par-  
ticipated in a full-fledged surprise  
gathering Tuesday evening at the  
home of Mrs. Joseph Strimbaugh, of  
McKibben street, she having reached  
her forty-first year. The crowd gath-  
ered at the Sweeney home, across the  
street, and their appearance at the  
home of the unsuspecting hostess oc-  
casioned all the astonishment they  
had hoped for. During the evening  
Mrs. Strimbaugh was made the re-  
sipient of a silk dress, gold ring and  
china salad dish. Music by Madame  
Sweeney and Stumbaugh and the  
Stumbaugh sisters well entertained  
the assembled company, and an ex-  
cellent lunch was served. The guest  
list included Mesdames Ida Beelman,  
J. Sweeney, C. A. Hollis, Ida Myers,  
Chloe Hoffmann, M. DeVinney, W. A.  
Wagner, C. Harper, Elmer Shockey,  
C. W. Naas, J. W. Olinger, J. E.  
Latham, D. F. McCarty, Effie Os-  
burn, E. C. Ring, Eva Kambale and J.  
W. Mack.

the men at the works in these meet-  
ings.

**Personal Mention.**  
Mrs. J. C. Kelly and Mrs. Ed. Pen-  
wick attended the session of Pres-  
bytery at Findlay, delegates from the  
Ladies' Missionary Society of the  
Main street Presbyterian church.

**At the Locomotive Works.**  
Engine 1509, a large three-cylin-  
der Shay, left yesterday for the Paci-  
fic coast. It is to be placed in the  
Lewis and Clark exhibition during the  
coming months as an advertisement  
for the firm and the western agents.  
Traveling engineer George Brem-  
ner will take it to its destination.

The apprentices at the works are  
returning one by one. Walton Thomp-  
son is the last one to leave.

The usual mid-week religious meet-  
ing was conducted by the new secre-  
tary of the Y. M. C. A., with Mrs.  
W. M. Curry as vocalist. It was an-  
nounced that unless a demand was  
made for further services they would  
terminate with the next meeting. It  
has been quite evident that no great  
enthusiasm has been manifested by

William Moore, of Marion, was the

they attended Presbytery.

A consolidation of the Ann Ar-  
bor and the Detroit Southern. The  
question of ownership has been set-  
tled in recent decisions of the United  
States Supreme court in similar cases.

The Ann Arbor, in conjunction with  
the Detroit Southern, makes a re-  
markably strong north and south  
system, of about 700 miles in length,  
affording a direct route from south-  
ern Ohio and West Virginia coal  
fields to the far northwest by means  
of our forces across Lake Michigan.  
Ends at Frankfort.

The Ann Arbor road runs north-  
west across Michigan, through Ann  
Arbor, Dundee and other little cities,  
and having its northern terminus at  
Frankfort.

From this point car ferries are  
operated at Frankfort, Manistique,  
Manitowic, Keweenaw, Menominee and  
also to Chibston, on the border side  
of the Upper Peninsula.

Connections are made at these  
points with the Wisconsin Central,  
the Chicago and Northwestern, the  
San Line and other northwestern  
lines.

**Will Be Friendly.**  
A communication of interest ar-  
rangement between all four lines  
mentioned, namely the Pere Mar-  
quette, the C. H. and D., the Detroit  
Southern and the Ann Arbor, is pre-  
sumably the full scope of the deal.

By bringing in the Ann Arbor and  
the Detroit Southern, the syndicate  
will be able to prevent the disastrous  
competition which might ensue  
should the road have fallen into hos-  
tile hands.

The ladies of Allen Hive No. 97  
will meet this evening in Central  
building. A full attendance is de-  
sired. By order of the Lady Com-  
mander.

is also a luxurious addition. The

classical dress the Juliet cap of many  
colored stones is wonderfully pretty,  
and quaint choux of velvet worn in  
the hair, the center consisting of a  
beautiful diamond or paste ornament,  
is a becoming coiffure adornment.

Flowered effects are the vogue just  
now, and lace motifs on gowns take  
the flowered form outlined with gar-  
tered velvet or satin ribbon. A gown  
of black tulle has medallions of  
venetian lace outlined with a narrow  
border of pale rosea green ribbon.

An exquisite arrangement of La  
France roses done in panne velvet  
adorns the petticoated front of a  
white satin frock made for a society  
beauty. The roses are held together  
by festoons of velvet ribbon.

Altogether charming is the little  
bodice shown in the picture. It is of  
brocade silk with an underground  
of pale blue and an overpattern of lace  
effect. An application of lace emboi-  
dery outlines the low neck with lattice  
medallions of pale blue velvet ribbon.

**VANITY'S VISIONS.**  
A New Braid Trimming—Marble Ve-  
lvet Is Smart—A Parisian Wrap.

A new description of velvet christen-  
ed "marble" has just been added to  
attractive fabrics of this nature, and,  
as its name foretells, the new variety  
is adorned with all the delicate tracery  
of the marble it simulates. It is used  
for the popular waistcoat and for trim-  
mings on elaborate gowns and wraps.

Marble velvet is most effective in  
white with little pinkish veining all  
over its surface which are hardly per-  
ceptible in some lights. It is also to be  
had in black and white, reddish brown  
and maldenite, the latter representing

some shades of green, which are charm-  
ing when used in connection with  
black.

The new taffeta braid is very smart  
with its little silk bands neatly plait-  
ed in and out in inch and a half wide  
trimmings. It is most effective when  
matching the gown in color.

Becoming long velvet basqued coats  
are worn with silky cashmere or cloth  
skirts. This fad has been adopted by  
all smart women who figure in the van-  
guard of fashion.

The dancing frock illustrated is of  
white silk batiste over an underrobe  
of pink liberty satin. The skirt is de-  
lightfully "frontrone" at the feet, and  
above the quillings of satin are two  
founces of swiss embroidery formed  
by molts strapped together with bows  
of pink satin ribbon. Each founce is  
headed by an insertion of swiss em-  
broidery. The baby bodice has the em-  
broidery and ribbon bow effect in front,  
and the decollete neck is finished with  
insertion. The high puffed sleeves have  
a line of smart little bows just below  
the stiffened puff.

**At the Fleeing Man Who Had Been  
Talking With Her.**

Findlay, Ohio, April 13.—A pretty  
young woman emptying a revolver  
at a fleeing man was the sight which  
met the eyes of several people on  
Washington street this afternoon. The

two were seen to meet and converse,  
and then the young lady drew a re-  
volver and fired four times at the  
man, who turned and fled. The par-  
ties are well known, but no arrests  
have been made.

## GOOD TIMES.

Good times breed good times. Last year's crops enriched the railroads, the railroads bought rails and rolling stock and bridges; the steel business experienced a revival, and the United States Steel Corporation is about to announce an increase of wages that will divide \$9,000,000 a year among 30,000 men.

## FORLORN HOPE.

When Admiral Cervera was peremptorily ordered to leave Santiago he could not have been more certain of his doom than Admiral Rojestvensky will feel when he receives his orders to cut loose from Madagascar and steer for Singapore and destruction. Although the Russian fleet is nominally superior to the Japanese—that is, it has more battleships, such as they are—no naval officer in this country has any doubt of what will happen when Admiral Togo comes within fighting range of the heroes of Dogger Bank. The Russian naval officer, like the Spanish, is a brave man, and an agreeable member of society; but, unfortunately, he has generally failed to make his profession the object of his life. Consequently, through his neglect of his profession he is likely to come to his death. If Rojestvensky's fleet is ever permitted to go into battle with Togo's, it is highly improbable that any of the Russian ships will get away except by surrendering at the nearest neutral port for disarmament until the close of the war.

## CATASTROPHES, MAN-MADE OR NATURAL.

Some prominence is given in the cable reports to the earthquake disaster in India whereby 5,000 people in a single town were engulfed in the earth and a whole district was depopulated. Similarly the flood horror at Madrid, where some 500 people were killed or injured by the bursting of a reservoir attracted some awestruck attention. However, in neither of these two catastrophes were as many or, probably as useful lives snuffed out, and certainly the conditions were no more horrible, than those which took place almost daily last fall and this early spring around Port Arthur and in the soul-harrowing campaign about Mukden.

We imagine too that the Chinese residents of the zone of war in Manchuria have suffered more severely than the inhabitants of the earthquake area of India. What is the use of being horrified when nature or industrial carelessness causes a catastrophe while the world reads unmoved of the horrors of war in Manchuria and is waiting now with an audience's strained attention for the veil to lift on the struggle to the death between the fleets of Russia and Japan? Is a man any less dead because he happens to have been slain in battle?

## YESTERDAY'S CUT IN OIL.

[Toledo Blade]

There is nothing special surprising or significant in the cut in oil today. There has been steady decline in the price of oil, and oil men will not be surprised if oil goes still lower. According to calculations made from the monthly "Chinese puzzle," known as the pipe line report, it is shown that despite the continued decline in prices the stocks have made a slight gain during the past month. This increase in stocks was small compared with the volume of oil handled, but it is the first time in months that the runs have exceeded the shipments, and, while oil men do not like decline, they are "from Missouri," and like to be shown some kind of a reason for the cut. The pipe line report for the past month shows a gain of 38,950 barrels, and this gain was due solely to the Muncie district. Other districts were light.

## Not Really Lost.

Traveler Visiting Niagara in 1925:—What has become of your wonderful falls? Niagara Man—They're still here, just the same as ever. If you want to see the water, though, you have to go to the power houses. But did you ever see anything quite as magnificent as this rocky gorge?—Chicago Tribune.

## Close Figuring.

"Politeness costs nothing," said the genial man. "That's where you are wrong," said Mr. Grab. "I have to pay for the time it takes my clerks to write please count thousands of times. And the word please never brings in a penny."—Washington Star.

## So It Does.

"Winter is a mean season," "Still, it has some advantages." "That'll do for talk, but can you mention one?" "Certainly. It makes your neighbor take in his phonograph off the front porch."—Louisville Courier-Journal.

## He Never Smiled Again.

"Where are you going, my pretty maid?" To grammar school, kind sir," she said. "What could I learn there, fair maid?" "Good manners, perhaps, sir," she said. —Chicago Journal.

## ANXIOUS TO PLEASE.

Mrs. Shortz (to prospective maid):—And mind you're up early every morning, Emily. We have breakfast at 9 sharp. Emily—A-wright, mum. Any'ow, if I'm not down, don't wait for me!—London Opinion.

## Deal!

Mary had a little lamb, its fleece was white as snow; But if you tried to shoo it, The difference you'd know. —Judge.

## Didn't Want to Board Him.

## CONFERENCE AT WAUSEON

THIRTY-EIGHTH ANNUAL MEETING OF CONGREGATIONAL CHURCHES—SERMON BY ALBERT MARION HYDE.

Wauseon, April 13.—The thirty-eighth annual meeting of the Toledo Congregational conference closed a two days' session at this place this evening.

The conference sermon delivered by the Rev. A. M. Hyde, of Toledo, on Tuesday evening, was one of the most powerful sermons ever delivered in Wauseon. Rev. Hyde took as his subject "Prophets of the Evangelism."

One of the interesting numbers on Tuesday evening's program was a violin solo by Master Frank S. Kenyon, son of the Rev. Kenyon of the Wauseon church. He is not 16 years of age, but ranks among the best young violinists of the state.

The program of Wednesday had among its speakers the Revs. Allen Higgenbotham and Colton, of Toledo, and the Rev. Swanson, of Lima.

The following officers were elected for the ensuing year: Moderator, Rev. J. L. Swanson, of Lima; secretary, Mr. Whitman, of West Milgrove; register, Rev. G. B. Brown, of Toledo.

## AMUSEMENTS

#### "The Minister's Sweetheart"

which comes to the Faurot Opera House on Saturday afternoon and evening, is one of the season's most noted successes. Miss Bessie Clifton's portrayal of "Daisy," the awkward, gawky country girl, has at a bound placed her at the top notch of successful stars. It is around this character the plot is laid and the humorous aspects are always in the foreground of the hypocritical old deacon and the gossip church women, because of the young minister's up-to-date ideas of right and wrong, the interview in which the deacons express their opinion of each other, the singing and dancing of "Daisy" and many other scenes have their ludicrous side. The denouement also gives satisfaction. Lusky Jim, acquitted of all crime, appears as his proper self and "Daisy" as an accomplished young woman. The scheming lawyer loses the property he fraudulently possesses and his daughter, after all her maneuvering, loses the young minister, who has been forced by his high moral ideals to become engaged to her, while really loving Daisy, who loves him in return. The company supporting Miss Clifton is one of the strongest of road shows.

#### ADVANCE OF SOUTH LIMA OIL

The Manhattan Oil company, supposed to be independent of the Standard, which is represented in the operating department in the middle west by the Ohio Oil company on Tuesday, at Findlay, O., offered a premium of 6 cents on South Lima oil, advancing the price of that crude 1 cent above North Lima. This action on the part of the Manhattan was immediately followed by the Standard making a cent of 2 cents on crude and also making a slash in refined all over the eastern states.

The Manhattan Oil company has just started taking Indiana oil. The new pumping station of that company has only been operating a few days and several leases are already connected with its lines. The agents of the Manhattan are contracting now to take oil from various leases as soon as the new lead line can be run into the Selma and Parker field.

Whether or not the Manhattan will pay a premium for the deep pay Indiana oil the same as it is now paying for the oil in Hancock county, Ohio, is uncertain, but the operators feel that something may be doing along this line, so they are watching developments closely.

# VAGS STANDARD OIL INVESTIGATION

GO TO THE TOLEDO WORKS FOR A SPRING VACATION.—LIT TLE DOING IN POLICE COURT THIS MORNING.

Things are decidedly quiet in police circles at the present time and this morning there was nothing doing in police court.

Blain Davis, arrested for drunkenness and disorderly conduct, an old time offender, drew a fine of \$20 and costs and thirty days in the Toledo works.

Charles Triem and Henry Sherlow, vags, were fined \$10 and costs and thirty days in the works.

Herbert Viana, arrested for disorderly conduct, the market place being the scene of the alleged offense, was arraigned this morning, pleaded not guilty and is having his hearing this afternoon.

Four other vags will be arraigned this afternoon and it is probable that they will be headed toward the city on the Maumee. They will reach there in time to attend Parsifal and will have their getaway in time for a Fourth of July celebration.

## WHITE CAFE

Opening Last Evening Was a Delightful Affair.

HUNDREDS OF PEOPLE VISIT THE PLACE AND ENJOY THE GOOD THINGS.

The formal opening of the White Cafe on the east side of the public square, which is destined to be one of the most popular places of the kind in the city, was formally opened to the public last night between the hours of eight and ten o'clock and during that time hundreds of people visited the place. A full orchestra furnished delightful music and a male quartette from Celina assisted in the entertainment.

Every visitor was served with a nice lunch, Messrs. Henry Stetule and Jack Fellows, being in charge of this part of the program.

The White Cafe, which has so suddenly leaped into popularity, is without a doubt, one of the handsomest and most up to date places any where in the state.

In attendance at the opening were many from Celina, St. Marys, Ottawa, Findlay, Bluffton, Wapakoneta and Delphos.

Will Be Conducted by Garfield Under Eight Heads, Each to Be Covered by Ten Questions.

Topeka, Kan., April 13.—James R. Garfield, commissioner of corporations, who is investigating methods of the Standard Oil company, today held a conference with General Manager H. L. Mudge of the Atchison, Topeka & Santa Fe railroad.

It is said that the suit against the Santa Fe, alleging conspiracy with the Standard Oil company in regard to oil rates was discussed. General Manager Mudge supplied the commissioner with a large amount of information as to rates on oil.

Other leading railroad men will meet Mr. Garfield. It is said that railroad managers welcome the opportunity of telling Commissioner Gar-

field their connection with the freight traffic in the west, as they are anxious to be set right about oil rates.

J. W. Parker, secretary of the Kansas Oil Producers' association, came to Topeka in answer to a telegram from Governor Hoch. Mr. Parker and Mr. Garfield had a long talk last night in which the commissioner was promised that the oil producers of Kansas would do all they could to aid the investigation.

Commissioner Garfield has decided, it is said, to divide his investigation into eight departments, each to be covered by answers to 10 questions. These questions are known only to Mr. Garfield and his assistants.

### Buckeye Stock During March Shared the Decline With Pennsylvania.

### Trenton Fields are Now Doing Better

JOHN R. WARE, OF FINDLAY, CLEARS UP SMALL FORTUNE IN KANSAS.

The Buckeye and Indiana pipe lines for March averaged 58,917 barrels, and the shipments averaged 67,176 barrels a day. This is a decline from the February returns of 2,135 barrels.

The net stocks of Pennsylvania oil declined during March 62,723 and the Buckeye 48,347 barrels, a total of 111,070.

Buckeye stocks are now 14,378,067 barrels, and those of the east 6,041,712, making a total for both fields of 20,419,779 barrels. The statement for Ohio and Indiana in detail is as follows:

Acceptance and vouchers 2,600,000.00  
Credit balances 10,775,067.24  
Total liabilities 14,378,067.24  
Gross stocks 17,502,432.50  
Salvage and surplus 2,556,565.51  
Items from wells 1,857,422.41  
Other receipts 1,121,712.17  
Total receipts 2,942,135.58  
Regular deliveries 2,080,495.58

### Trenton Fields Show Better

Developments in the Trenton rock fields were a little more interesting last week than the previous week. More wells came in and more production was secured from them than from any similar number last month.

In the Delaware Co. field of Indiana deep sand 19 wells were completed with a combined production of 1,200 barrels an average of 75 barrels to the well. The York Co. company on the Ohio farm was the most promising venture of the group. It started with a yield of 225 barrels.

The entire Houston field completed 25 wells and Ohio furnished 26 for the week.

In the new pool in section 25, Henry township, Wood county, Ohio, two more wells have been added to the producing list. The first was put to work by Bessy & Fuller. It is called with 50 barrels. The second is Shirley's No. 2. Witten farm, which is reported doing a tank a day. No. 2 on this farm is in the sand. No. 2 is being pumped with 3 inch stuff, and had been pumping water alone until Friday evening last.

On the Haines farm, the Eastern Oil and Gas company completed an offset to the Shirley No. 1. Witten, and have a well good for a barrel a day only.

Shirley's No. 1, Halbreath, was tugged yesterday. There is considerable water in the pool and it requires considerable pumping to reduce it.

J. H. Gauss is completing a good looking well on the northeast portion of the Tobias farm in Oregon township. Fieldman Heyman says that it is the best looking well he has finished for months.

### Good Kansas Hit.

John H. Ware, of Findlay, went out to Paola, Kansas, where they have a shallow sand field, and took up 600 acres of leases. He then drilled six wells, getting a fair producer every time. The other day at independence, he drilled the enterprise for the sum of \$25,000. His production in the month paid first cost of the plant. Paola is one of the few light oil pools of a shallow nature. At Cottonwood, Kansas, they say 25 cents a gallon for refined oil, and at Emporia it is sold for 12 cents. The people of Cottonwood have been on their difficulty, and are using the Standard Oil Co. for a rebate. There is no doubt but that the company has most of these

## GREAT CENTRAL WILL NOT BUY

### C. H. & D. Has No Interest in Ann Arbor Deal.

### PENNSYLVANIA MAY BUY

ANN ARBOR RAILROAD, ACCORDING TO BELIEF IN WALL STREET—RAMSEY REFUSES TO DISCUSS IT.

A special telegram from New York says that President Ramsey, who is in New York to attend a meeting of the Wabash railroad directors, this afternoon refused to discuss the alleged Ann Arbor-Cincinnati, Hamilton & Dayton deal, and officials of the latter company say they have not purchased the Ann Arbor and will not. The correspondent says further that there is a better in Wall street that a syndicate has sold, or is about to sell, the control of the Ann Arbor, possibly to the Pennsylvania. He says further that information obtained in New York is to the effect that the Wabash never owned a controlling interest in the Ann Arbor, but that a syndicate has been "selling for" the Gould interests, and that it looks as though some one in the syndicate had sold them out. In all probability the syndicate referred to is a St. Louis trust company, which, at the solicitation of the Gould interests, advanced \$100,000 to secure an option on the Ann Arbor.

The foregoing, which serves to strengthen the belief in Toledo that the Pennsylvania is seeking control of the Ann Arbor, with a view of strengthening its position in the northwest.

Thinks it May Be the Penny.

A well informed railroad man holds in the opinion that Pennsylvania interests are negotiating for purchase and control of the Ann Arbor. He believes that the Pennsylvania sees the need of the Ann Arbor as a feeder for northwest business, especially since the Great Central alliance has diverted a large amount of traffic from the Pennsylvania to the C. H. & D. If the Pennsylvania is really in the deal, it means that the Ann Arbor will continue to be operated very much as at present, and, likely, under the present set of officers. Some years ago the Pennsylvania acquired interest in the Grand Rapids and Indiana and yet it is operated entirely as a road separate from the Pennsylvania organization, the idea of the Pennsylvania being to supply control of the traffic.

Prominent representatives in New York of the controlling interest of the present C. H. & D. system say that there is no truth in the report of the experts now engaged in examining the finances of the company is satisfactory to the would-be purchasers. It will not be sold, at least for the present.

"From reports which have been received during the past two days," it can be said that the pool which was recently formed in the stock of the Great Central railroad has been closed out with a profit to the participants of more than \$10 a share," says the Cincinnati Enquirer. "It is intimated in the address that a good sized block of the stock has been unloaded upon the public, although the interests which have been back of the company are still in control of the property. It is understood that a good portion of the stock has been bought by the interests in control with the intention of selling at their own bidding to the syndicate which was back of the C. H. & D. and Pere Marquette. The only interest that people had in buying the Great Central, however, was to turn it over to the C. H. & D. together with the other two roads owned by the same people. The option held by the C. H. & D. and its allied properties was subject to a financial inspection. It is understood that this did not turn out to the liking of the Erie people and that an option expired by limitation. In this connection the hope of selling the Great Central to the Erie by a roundabout method was discarded and the option said to have been held by

held up in the Senate.

Kent, Ind., have purchased the interests of the Ohio and Indiana National gas company which has pipe lines running to Dayton and other towns in southwestern Ohio, and others in eastern Indiana. The gas flowing entirely played out the pipes will now be taken up and used in other places. They say there that about 150 miles of 12, 16 and 20 inch pipe will be removed, and that the Cleveland legislature passed a bill last week, but has been all summer to accomplish the work.

the C. H. & D. people on Clover Leaf was also permitted to expire. This left the Clover Leaf people with a good sized block of stock on hands which they did not care to possess, hence the pool was formed for the purpose of making a market and unloading it. This was done at figures around 45. A short time before the present interests got possession of the Clover Leaf the control of the property was offered to the Vanderbilts at 12 1/2. Cleveland men are largely interested in both Clover Leaf and C. H. & D.

### Extension of the T & I

Fort Wayne, Ind., April 13.—There are indications that before long Fort Wayne will connect with Toledo by a line, an extension of the Toledo & Indiana. A survey for the projected line has already been made between Bryan and Hicksville, and surveys are now going over the route between Hicksville and Fort Wayne. It is said that matters are in such a shape now that the road will be built from Bryan to this city during the present year. The commissioners of this county have granted the projectors a right of way from the Ohio-Indiana line to Fort Wayne for the road. It will hug the highways closely, but at no point will they be used. The company is purchasing land paralleling the highways.

### Western Ohio in Trouble.

Lepais, April 13.—Some little difficulty is being experienced by the Western Ohio in building its electric line from Lima to Findlay. In Union township the right of way was secured two years ago and it was agreed that in case the line was not built in two years, the deed to the land would become null and void. Herman P. and Elizabeth Smith are plaintiffs and the Western Ohio Railway company and the Savings and Trust company, of Cleveland, defendants, and the cause is to quiet title in a case recently filed. Defendants failed to comply with the contract. It is alleged.

### A MILLION DOLLARS

To Be Raised by Mortgage Filed by C. H. & D.

Cincinnati, April 13.—A mortgage for \$1,000,000 by the Cincinnati, Hamilton & Dayton railroad to the Central Trust company of New York and Rudolph Kiehl & Co., of Cincinnati was placed on file this afternoon. The funds thus secured being intended for new equipment. The indebtedness is to be paid off at the rate of \$54,000 per year and 4 1/2 per cent interest will be paid on deferred payments. The total cost of the new equipment will be \$1,200,711 and it will include passenger, parlor, postal, baggage, mail and coal cars and consolidated freight engines.

### A CALL TO PRAYER.

Since the beginning of the revival in Wales last November about one hundred thousand persons have confessed Christ. In Dr. Torrey's meeting in London hundreds are coming to Jesus. In many places in this country there have been great awakenings and the spirit of expectation is stirring many hearts. Prayer unions are being formed and the people, regardless of denominational lines, meeting together for prayer. In connection with all of this over-activity of the leading christian workers of the different denominations have issued a special call to prayer, and set next Saturday, April 15, as a day of fasting and prayer. Lima must swing into line so a meeting has been arranged for at the Gospel Tabernacle, south end of Main street, bridge at 2:30 p. m., and at the C. H. church at 7:30 p. m. Everyone who desires to see a great revival in Lima and all the world, is requested to meet with us at one of these meetings for prayer.

THIS is the day of the natural waisted woman. The W. B. Erect Form has changed the American figure. It has supplanted discomfort with ease—it has banished the impossible and exaggerated figure produced by the old corset. It removes the strain of lacing from the sensitive parts of the body and throws all pressure upon the hips and the strong back muscles, supporting the stomach within the corset and not forcing it below the garment. The Erect Form is made in more models than ever before. There are forty distinct styles of this popular make, each meant for a distinct type of woman. Dealers in all sized towns and cities the land over, sell the Erect Form. Prices range upward from \$1.

**THE RAILROAD CHANGE GOOD FOR MANCHESTER.**

The first important change on the Rutland Railroad since the Central Hudson Company took control went into effect today. The flyer which heretofore left Rutland at 2 p. m. and arrived in Troy at 4:20 will run to Albany, instead of terminating at Troy at Troy. This does away with transferring passengers to the local belt line for Albany.

This will prove a great convenience to travellers as the connection with the fast trains from Albany will be more certain and the time to New York and the West shortened. No doubt this change will soon be followed by closer reverse connections and additional conveniences and the summer schedule will be much improved and time shortened. Indeed it is with pride that we can now write:
